SR-42HZP

Commercial Rice Cooker

Panasonic SR-42HZP Features

• Thermostat for Precision Control

A built-in thermostat maintains heat at a precise and uniform level, virtually eliminating burning or overcooking of the rice. As a result, rice is cooked to the Chef's preference.

• Easy Push-Button Operation

The push of a button starts the rice cooking. As soon as the rice is cooked, the unit shuts itself off.

• Keep Warm Feature

After food is cooked, unit automatically holds the temperature at a HACCP friendly 165°F+.

• Alternate Uses

Not only does it cook rice but can braise, heat liquids and cook many different items — call or see our web page for Chefs Technical Support.

• Large Capacity

SR-42HZP can cook up to 23 cups (4.4 qts.) in approximately 30 minutes.

• Direct Heating System

A specially sheathed element heats the pan bottom directly which minimizes heat loss and in turn saves energy costs. Safety thermal fuse will protect the unit from possible temperature rise.

• Easy-to-Clean Removable Pan Liner

The SR-42HZP pan liner lifts easily out of the cooker to make washing and rinsing a breeze.

• UL Approved and NSF Approved

SR-42HZP is built with a durability and attention to safety that has earned certification from both Underwriters Laboratories and the National Sanitation Foundation for **commercial** use.

Servings

Raw Rice: 8.5 lbs. (23 — 6 oz. cups)

Servings: 74 — 3 oz. portions
54 — 4 oz. portions

Cooking Time: Approximately 30 minutes

Technical Specifications

Power source: 120 V AC, 60 Hz

Power consumption: 1550W

Amperage: 12.9 A

Cooking capacity: 1 D-4.4 qts. (5-23 cups)

Cord length: 67"

Net weight: 12.1 lbs. (5.5 Kg)

Carton size: 17" w x 17" d x 10-1/2" h

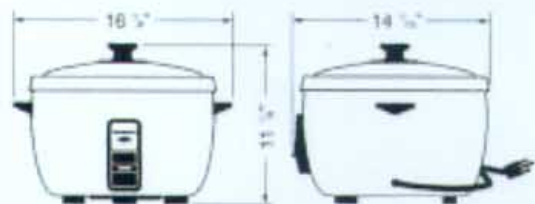

Master carton: 2 cartons in shrink wrap

Master carton weight: 27 lbs.

Master carton Cu. ft.: 3.6

Color: Silver
